

# ACID A neutralizer

## Acid Encapsulating Neutralizer

Acid Encapsulating and Neutralizing Polymer is an environmentally responsible product, developed to control and neutralize spilled acids.

### Features:

- Versatile -provides safe & effective spill control for most common acids
- Effectively neutralizes and encapsulates most acids
- Color change indicator reflects neutralization
- Non-toxic, non-corrosive and non-hazardous
- Forms a manageable gel

Acid neutralizing pads, socks & pillows

### Applications:

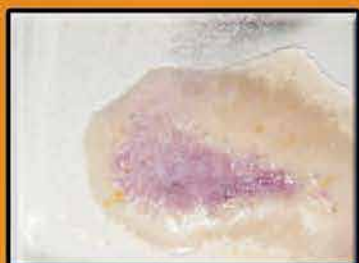

- Battery shops
- Transport and storage facilities
- Emergency response units and vehicles
- Schools, hospitals and commercial laboratories
- Industrial, commercial and first aid sites

### Instructions:

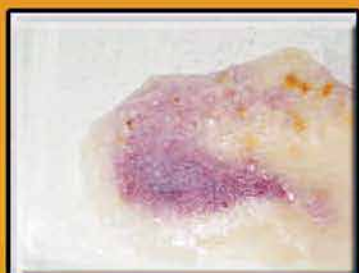

- To treat free flowing spills, apply from the perimeter of the spill inwards.
- As a precautionary measure for static spills, apply evenly over the spill.
- Use sufficient neutralizer to eliminate the presence of any liquid acid and create a uniform gel.
- Carefully add until a purple color is evident. Do not over neutralize.

**Note: Not recommended for use on hydrofluoric acid.**

Place the neutralized mixture in a suitable container and dispose in accordance with local, state and federal regulations.

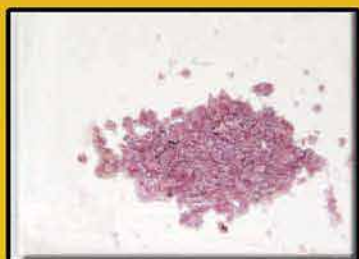

Neutralizing sulfuric acid

Foaming indicates neutralization in process

Purple color indicates non-acidic

May now be handled  
(Appropriate protective equipment is recommended)

### 2 lbs of Neutralizer, Neutralizes Approximately:

Acid	Concentration	Volume		Volume	
		in Qts	Concentration	in Qts	Concentration
Sulfuric	98%	.48	50%	.8	10%
Nitric	68%	.96	40%	1.6	10%
Acetic	100%	.64	78%	.96	40%
Phosphoric	40%	.87	10%	2.4	10%
Hydrochloric	40%	.96	20%	1.6	10%

Application rates are for guidance only. A number of factors, such as spill volume, geometry and operator training will influence application rate.

### Acid Encapsulator Neutralizer is available in:

Part No.	Description	Typically absorbs
ACID2	2 lb. Shakers (10)	6.50 gallons
ACID10	10 lb. Box	3.25 gallons
ACIDPAD10	11" x 12" Pads (10)	.25 gallons
PAN1212-4	12" x 12" x 1.5" Pillows (4)	1.50 gallons
SAN24-4	2" x 4' Socks (4)	1.50 gallons

Custom Products Available.
