## WE'RE LISTENING TO YOUR CONCERNS

We've been listening to your concerns and have developed many innovative solutions to meet your needs.

Our products aid with **difficult cases** by:

- Preventing seepage and leakage
- Filling Voids

We've addressed **donor reconstruction** issues such as:

- Time consuming re-opening and re-closing to embalm
- Reducing exposure time to hazardous chemicals
- Avoiding snipped or severed arteries & incorrect artery tie offs
- Too little tissue remaining for adequate closure

# FUNERAL HOME CONCERNS

*incorrect  
artery  
tie-off*

*careless skin  
recovery*

*careless  
scalpel*

*snipped  
arteries*

## OFFERING SOLUTIONS FOR DIFFICULT CASES

Leakage is a major liability concern for funeral homes.

Our complete line of LIQUIDLOCK™ products convert fluids to a gel, preventing seepage, leaks & discharge.

*LIQUIDLOCK™ is available in a variety of forms to fit many applications.*

***BULK CAVITY FILLERS:**  
Loose cellulose fluff embedded with LIQUIDLOCK™ powder. Pack into areas to add bulk and absorbency.*

***ROLLS:**  
Layers of cellulose fibers & LIQUIDLOCK™ powder. Wrap or fill around seeping areas.*

***CAVITY FILLERS:**  
Infused with LIQUIDLOCK™. Place in areas where pooling fluids occur and fills voids.*

***PONCHOS:**  
LIQUIDLOCK™ fabric with barrier film traps leaks.*

**RETURN ENCLOSED SURVEY**  
and receive this  
**FREE SAMPLE PACK**

**Contains:**

- 1 8oz Bottle LIQUIDLOCK™ Powder
- 1 1 lb Bulk Cavity Filler
- 1 Cranium Pad
- 1 Tracheal Insert
- 5 3.25" x 14" Pads
- 1 Barrier Sheet 24" x 86"

## DONOR SYSTEMS & RECONSTRUCTION

When performing donor reconstruction, using our **COMPLETE EMBALMING SYSTEM™ (CES)** streamlines the process, making your life easier.

Our products provide safe, effective and time saving solutions for embalming.

The process to use our system is effortless.

1. Simply contact your donor bank
2. Request that the system be installed.

That's it. The donor will arrive with the system in place, allowing you to complete the process of reconstruction in an efficient & timely fashion.

View **Instructional DVD**  
to learn more.

*The **CES** includes  
all the components  
in a ready to go  
donor pack.*

# COMPLETE EMBALMING SYSTEM (CES)

INCLUDES A SELECTION OF ALL PRODUCTS LISTED BELOW

## LIQUIDLOCK

- Prevents seepage, leaks and discharge
- Powder gels fluid
- Absorbs up to 300x's its weight
- Multiple styles available

## ARTIFICIAL ARTERIES™

- Replaces donor arteries with an alternative internal irrigation system
- Equally disperses embalming solution throughout extremities
- Saves time with no need to re-open and re-close the donor
- Reduces exposure time to hazardous chemicals

## BIO-BONES™

- Biodegradable bone replacement prosthetics
- Degrades in burial and cremation
- Provides rigidity and fills voids
- No sharps or hazards

### ADDITIONAL SUPPLIES

- Mortuary plastics
- Prep room supplies
- Personal protective apparel

## BENEFITS TO USING THIS SYSTEM:

- Donor is pre-fitted with system at NO charge to funeral home.
- Saves time with no need to re-open or re-close donor.
- Reduces hazardous chemical exposure time.
- Speeds reconstruction process.
- Opens communication with funeral home & tissue bank.
- Support donations and save more lives.
